OPEN ACCESS PUBLICATION

All manuscripts submitted to the German Journal of ClinicoEconomics will be treated as open access articles. In this publication model submitted papers are reviewed under editorial guidance. Upon acceptance of a manuscript for publication, the author will receive an invoice for the publication fees (see details below), which are due immediately. These costs cover the production and provision costs of the journal.

Published articles will be available electronically with an open access on the journal's website for non-commercial use. Authors may use their published PDF-files for any non-commercial distribution.

COMMERCIAL USE

It is not allowed to reproduce articles of the German Journal of ClinicoEconomics in any way (medium, format, etc.). Furthermore, any commercial use of the articles (e.g. for product support) without the written consent of the editors and the journal as well as the therewith associated additional fees is prohibited. The prices for commercial use (including "re-prints") are available upon request (GJCE_submission@marketaccess-pricingstrategy.de).
